New Respirator for Gas Victims

Dr. C. Coedell with a nurse at Gouverneur hospital, New York, look-
ing over a new type of mechanical respirator, said to be more effective
than the pulmotor. Instead of pumping air in and out of the lungs
through a tube and mouthpiece, the machine rhythmically increases and
decreases the air pressure on the outside of the chest, the patient being
enclosed in an airtight tank of sheet iron.

NEWS AND NONSENSE IN THE P. E. SHOPS

Edited by Carleton B. Bell

Well, the sting of that defeat by
the trainmen's baseball team on
picnic day is wiped-out. The shops-
team was beaten that day in the
last inning after having the game
on ice and the shops team excited
things up last Sunday by beating
the trainmen the same way. The
score was 5 to 2 in favor of the
shops. The change in the line-
up—then the parade started.
Everybody up hit the ball unless
they were walked and when they
decided they had enough the score
was 6 to 5 with three men on bases
and only one out. "The change" in
the lineup by Capt. "Red" Adkins
worked all for the better and the re-
juvenated team worked well, though
not perfectly by any means. The
fielding of little errors in center-
field was the most consistently
good ball playing of the whole
game.

The awarding of the Baldrick
turkey looks like an investigation
might reveal something. Mary owed
George Gilks a debt of gratitude
for picking her up on the way to
work one morning recently. How-
ever, she was when Louie's
gasoline was all burnt up that
George happened along and lent the
helping hand. Anyway, George
Gilks won that 26 pound turkey.

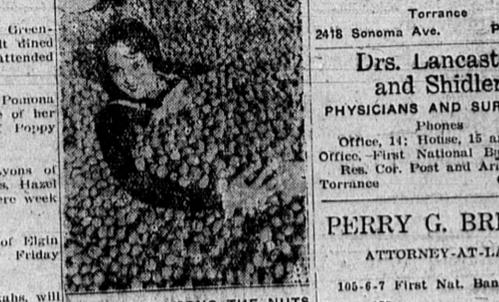

White mule may be all right in
its place but Otto Martin likes
Torrance water better. Anyway
Otto took a pint bottle of Tor-
rance water home with him the
other night. He did think it smell-
ed strong but it was nothing but
water, that is Torrance water.

"Big Boy" Eddie McGuire was a
visitor at the shops last Friday.
Eddie was home to eat turkey with
the folks.

Peter Lallich had the misfortune
to be a principal in an automobile
wreck late Sunday night. He was
taken to Georgia street hospital and
thence to the General hospital.
Word from his nurse is to the ef-
fect that Pete says, "He feels fine
but he looks terrible." If it is con-
sidered wise to move him at this
time he is to be transferred to the
California Lutheran hospital under
the care of Dr. Weber.

Tom Atkins is not yet used
enough to the feel of his store
tooth that their absence is readily
noticed. Sunday morning he want-
ed hot cakes for breakfast and did
not need his teeth, used the knife
instead. He went away and left
the teeth on the counter but had
to return for them later as he in-
tended to have steak for his noon
meal.

George Wheeler had the misfor-
tune to lacerate his right thumb
very painfully Monday morning. He

day of Mrs. Henrietta Hesse, moth-

DIRIGIBLE BASE LOST TO TORRANCE

Navy Secretary Overrules Admiral Moffett and Spe- cial Navy Committee

The hope that Torrance might be
selected by the navy as the Pacific
Coast dirigible base, went glimmer-
ing yesterday when Secretary of
the Navy Adams recommended to
Congress that the Camp Kearny
site at San Diego be selected.

The special Navy air board un-
der the leadership of Rear Admiral
Moffett gave careful study of the
Torrance site some months ago and
commendat Carl Hyde for the ex-
haustive and comprehensive survey
he prepared for their consideration.

In recommending the San Diego
site, Secretary Adams overruled
the opinions of Admiral Moffett
and three other members of the
special investigating committee who
recommended the Sunnyvale site
near San Francisco. The Secretary
of the Navy had the support of
the Navy general board in his re-
commendation of the Southern Cali-
fornia site.

THAT CAR OF YOURS.

If spark plugs are not re-
placed at the end of 10,000
miles they should be tested
and the points adjusted.

The exterior of the radiator
core should be cleaned with
air. It is surprising the amount
of dead insects and dirt that
can be cleaned out, which
cleaning will add additional
cooling capacity to the motor.

On cars equipped with the
oil gauge on the side of the
motor which remains in the
same position for between 500
and 1,000 miles, it is suggested
that the gauge be inspected as
it might be stuck and not reg--
istering the proper oil level,
which may be below the dan-
ger point.

when batteries should be giv-
en very careful attention, for
the mornings are cool and more
energy is needed to start the
motor. A battery in a run
down condition is of no value
on cool mornings.

If the front wheels "shim-
my," it is a good indication of
worn king pin bushings. This
condition should be remedied
immediately, as it might cause
a serious accident or unneces-
sary wear on tires.

Radiator hose connections
should be renewed at least
once a year, for it is surpris-
ing how the inside of the hose

bulges toward the center, chok-
ing up the proper circulation of
the water.

Stay Out of Pool Halls, You Lads

Boys and girls under the age of
18 will be prohibited from enter-
ing any pool hall, billiard hall, or
bowling alley, under the terms of
a new ordinance introduced at this
week's meeting of the Torrance
City Council by Councilman G. A.
R. Steiner.

At present the statute merely
prohibits youths from playing in
such public pool halls, and does
not prevent them from entering or
working at these places.
